[LAB] Tester Zoyi ZT219

REL: Relative measurement for voltage, current, and capacit

RANGE: Auto/Manual Range

SELECT Button: Press to switch between functions within each dial position

LCD Display Screen

MAX/MIN: Maximum / Minimum Values

Hz%: Frequency / Duty Cycle measurement for AC current or voltage

HOLD/Backlight Button: Press to hold the current reading; press and hold for more than 2 seconds to turn on the backlight, press again to turn it off.

Rotary Switch

Common Terminal

Input terminal for AC/DC current measurement (20A)

Input terminal for current measurement in mA and µA ranges

Input terminal for measuring voltage, frequency, duty cycle, resistance, continuity, diode, capacitance, and temperature

- Manual
