

## Product Brief

# Intel® Dot.Station™ Web Appliance

The Intel® Web Appliance Service Platform enables service providers<sup>1</sup> to have a permanent and branded sales channel to consumers in the home. Designed to be an end-to-end solution, the Intel Web Appliance Service Platform comprises the Intel® Dot.Station™ web appliance and the Intel® System Management Suite (Intel SMS).

The Intel Dot.Station web appliance offers an easy-to-use real Internet experience<sup>2</sup> and e-mail access for non-technical consumers. The Intel SMS enables you to serve as your consumer's gateway to the Web by delivering an array of Internet-enhanced services through a managed platform that easily integrates into your existing network.

The Intel Web Appliance Service Platform delivers to you and your consumers alike, an increasingly easier-to-use and cost-effective way to take advantage of the Web, now and into the future.

**The Intel® Dot.Station™ web appliance offers an easy-to-use real Internet experience<sup>2</sup> and e-mail access for non-technical consumers.**

<sup>1</sup> Internet service providers, e-Commerce retailers, and other verticals

<sup>2</sup> Most Internet content formats are supported. Service providers can remotely update the appliance with new software and Internet content support that becomes available for the Intel Dot.Station web appliance. Some Internet content formats are not supported. Users cannot read documents that require certain PC software programs and cannot download and install software programs. # Features and Benefits

## REAL INTERNET EXPERIENCE<sup>2</sup>

- Custom Intel browser based on Mozilla\* – the world's most standards-compliant browser technology.
- Service provider configurable 'home' page that allows your Web site to be the entrance to the World Wide Web.
- Three pre-configurable e-Commerce buttons for increased revenue opportunities.
- Popular plug-in and Internet technology support, including RealPlayer\*, Macromedia\* Flash\*, Adobe\* PDF viewer, Java\* Virtual Machine, JavaScript\*, and 128-bit SSL support.
- Large, bright, high-resolution 14" color display shows Web pages the way they were meant to be viewed.
- Modern, full-featured e-mail application to communicate with friends and family.
- Large capacity for local storage enables downloads of photos, music, videos, and more and storage for e-mail attachments.
- Amplified stereo audio speakers for great Internet audio playback.

• **BENEFIT:** The Intel Dot.Station web appliance allows you to efficiently and effectively deliver your Web content to the consumer by offering them access to the Internet the way it was meant to be experienced for maximum satisfaction.

## FAMILY-FRIENDLY

- Support for up to seven users so each family member can have their own personal space.
- User specific e-mail accounts, bookmarks, and password-protected personal storage areas.
- Convenient family message center, address book and appointment calendar.
- Optional telephone and phone management applications.
- Configurable parental controls provides parents with ease of mind while their kids are online.

• **BENEFIT:** The Intel Dot.Station web appliance is the perfect way for the whole family to benefit from your content and services.

## EASY-TO-USE AND HASSLE-FREE

- Just minutes from out-of-the-box to online.
- Factory configured registration information insures fast and accurate access to your services.
- Powers on and off at the touch of a button — no 'booting' required.
- Friendly, intuitive graphical user interface.
- One-button access to all major applications.
- Intuitive, ergonomic touchpad pointing device.
- Twelve keyboard-based 'hot' buttons for instant access to key applications and pre-configured e-Commerce sites.
- At-a-glance indicators inform the user of connection status and unopened e-mail messages.
- Easily accessible volume, mute and brightness controls.
- Built-in tutorial and comprehensive help, illustrated user's manual and clear, concise setup poster.
- USB-based plug-and-go support on selected printers.
- Zero maintenance software for the consumer — entire software configuration remotely managed using Intel SMS.

• **BENEFIT:** The Intel Dot.Station web appliance is simple to operate for even the non-technical consumer, opening a market opportunity to a world of new users.

## WORLD-CLASS INTEL TECHNOLOGY AND QUALITY

- Intel® system board with genuine Intel® processor.
- 1-year limited warranty.
- Custom Linux\* operating system for increased flexibility and innovation.
- Hard disk drive for saving downloaded material for offline use.
- Comprehensively tested and validated for robustness.
- High-performance for multimedia and graphics-rich Web content.
- Intel's comprehensive platform links the Intel Dot.Station web appliance and the Intel SMS to give you ultimate control, and allows service providers to update software remotely.
- Security measures prevent unauthorized access to your services.

• **BENEFIT:** The comprehensive Intel Web Appliance Service Platform provides safety, reliability and keeps consumers current with no-hassle technology updates.
